1.1 Application to and participation in the Buckeye Premier Youth Soccer League, BPYSL, is by invitation only to USSF registered club/teams. All teams make application to the Buckeye Premier league with the understanding that final acceptance and placement within the divisions lies exclusively with the Buckeye Premier Board of Directors. US Youth teams from outside of the boundaries of OSYSA require approval from the team's National State Association and OSYSA. Any rules in place by a State Association requiring their teams to play within their State Association are not bypassed by these rules.

1.2 Invitation for participation is open to any properly registered USSF competitive club, organization, or team in good standing with their respective USSF organization.

1.3 All applications for participation in Buckeye Premier must be received by the deadline dates established each season.

12.0 GUIDELINES FOR LIGHTNING AND HAZARDOUS WEATHER CONDITIONS

The protection of Ohio South members and participants is of paramount importance. Every member should recognize the danger presented by lightning, tornados, and other hazardous weather. The following items represent generally accepted principles regarding the dangers involved with lightning and tornados.

LIGHTNING:

- All thunderstorms produce lightning and are dangerous.
- Lightning often strikes as far as 10 miles away from any rainfall. You are in danger from lightning if you can hear thunder. You are in danger if you can see lightning.
- Lightning injuries can lead to permanent disabilities or death. Look for dark cloud bases and increasing wind.
- Lightning can travel sideways for up to 10 miles and strike when skies are blue.
- Soccer fields are a dangerous place to be during a lightning storm. When lightning is seen or thunder is heard, or when dark threatening clouds are observed, quickly suspend the match and/or practice and move to a safe location.
- Avoid standing in an open area, near soccer goals, under a tent, near trees or in water. The safest place during a thunderstorm with or without visible lightning is in a car, but not a convertible.

TORNADOS:

- Watch for rapidly darkening skies.

Buckeye Premier Youth Soccer League Policies

Effective 1-20-2019

- The sound of an approaching tornado is often described as that of an approaching train.
- The funnel of a tornado does not have to touch down to cause extensive damage and injuries.
- Tornadoes can produce winds of 300 miles per hour or more.
- Most people who are hurt during a tornado are hurt when they are struck by flying debris.
- Seek safety in a solid structure, preferably in a basement or in an interior room. If no building is available, lay down in a ditch.

MATCH SUSPENSION REQUIREMENTS:

In any of the circumstances outlined below occurs the referee must immediately suspend the match.

1. If thunder is heard the match must be suspended and the fields cleared. Everyone should immediately go to a safe shelter.
2. If lightning is seen the match must be suspended and the fields cleared. Everyone should immediately go to a safe shelter.
3. If a thunderstorm is heard or your hair stands on end, the match should be suspended and the fields cleared. Everyone should immediately go to a safe shelter. Do not wait until it rains.

If the match official does not immediately suspend the match when any one of the points above have occurred, the head coach from each team can agree that one of the criteria listed above have occurred they are to withdraw their teams from the field. If this action is taken, then both coaches must submit a written report to their league outlining the circumstances, the facts concerning the weather conditions at that time, the fact that the two coaches were in agreement and the name of the officials at the match.

If an official and one of the coaches do not reach the conclusion to suspend the match and any one of the four points listed above are believed to have occurred, the coach that supported the suspension of the match is to send a written report to their league outlining the facts and the names of the officials.

No one should retake the field or re-start the match until all of the lightning and thunder or other hazardous weather has left the area. Specifically, no one should retake the field for a minimum of 30 minutes after the last lightning is seen or thunder is heard, or the dangerously high winds have passed.
